TC 1600,

Examiner is looking for Table 1 of spec contained in a CD. The CD was made into an artifact, bar code 09825212SA, and, according to PALM, is in your location since 5/7/4. Was the artifact folder dispatched to and received by examiner?

Thanks for your attention.

Application Serial Number (ASN): 09825212

Applicant appears to have filed part of the specification on a compact disk containing Table 1. Table 1 is the most important part of the disclosure, but it is not found in the IFW image file. Please, complete scanning the file.

Thanks,
